## About the Temple of the Sun

Whatever concept of God each of us has, it is the right one for us at any point in time. As we grow, unfold and change, so will our concept of and relationship with God.

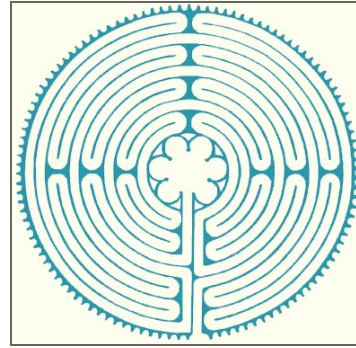

It is our belief that Infinite Intelligence cannot be defined, understood or qualified with any degree of accuracy; therefore, we accept the unlimited potentiality of all that is and all that can be.

There is no thing in the cosmos that is not a manifestation of Infinite Intelligence. Countless lifetimes will help each to grow until no more can be gained and the master of life in this form is achieved. Every spirit will then in its own time, move on to different experiences in other world, planes and dimensions.
